Subject: Application to the NRC for the New Powder Container (NPC)

Reference: Docket 71-9294, USA/9294/AF-85

Dear Mr. Crespo:

Enclosed is a CD containing our application to the NRC dated 9/30/02. The changes requested primarily involve approval to ship heterogeneous materials in addition to the current content authorization. In addition, the application requests changing the drawing number to agree with our current engineering department's system and various other changes that we do not believe affect the package's safety.

Please contact me on (910) 675-5656 if you have any questions.

Sincerely,

Global Nuclear Fuel - Americas, LLC
